These templates are for personal use only. You can make them for your mom, you can make them for your aunt, you can make them for your family reunion, etc. Please don't sell these free templates for your own personal gain. I put them out there as a service, don't make me get frustrated and stop doing them. Don't ruin it for everyone else! Also, if you're going to sell art, maybe you should make it your own. You can do it, I promise! It's not good karma to pass off someone else's art as your own.
